

Quintessence

QR environment control

Products and services 2019

Simple control for your POD environments

Personal control of your meeting spaces provides more comfort and better productivity in pods.

By simply scanning a dedicated QR code assigned to the POD, the user can alter the fan speed and lighting settings.

No need to download an app, but an app is available as optional for corporate deployment.

Complete with a dedicated dashboard, pod settings can be adjusted and space utilisation monitored to ensure a good return on your POD usage.

Pricing

PER POD

£720.00

INCLUDES;

Lighting and fan control *

APP from Apple or Play download stores

Utilisation Dashboard

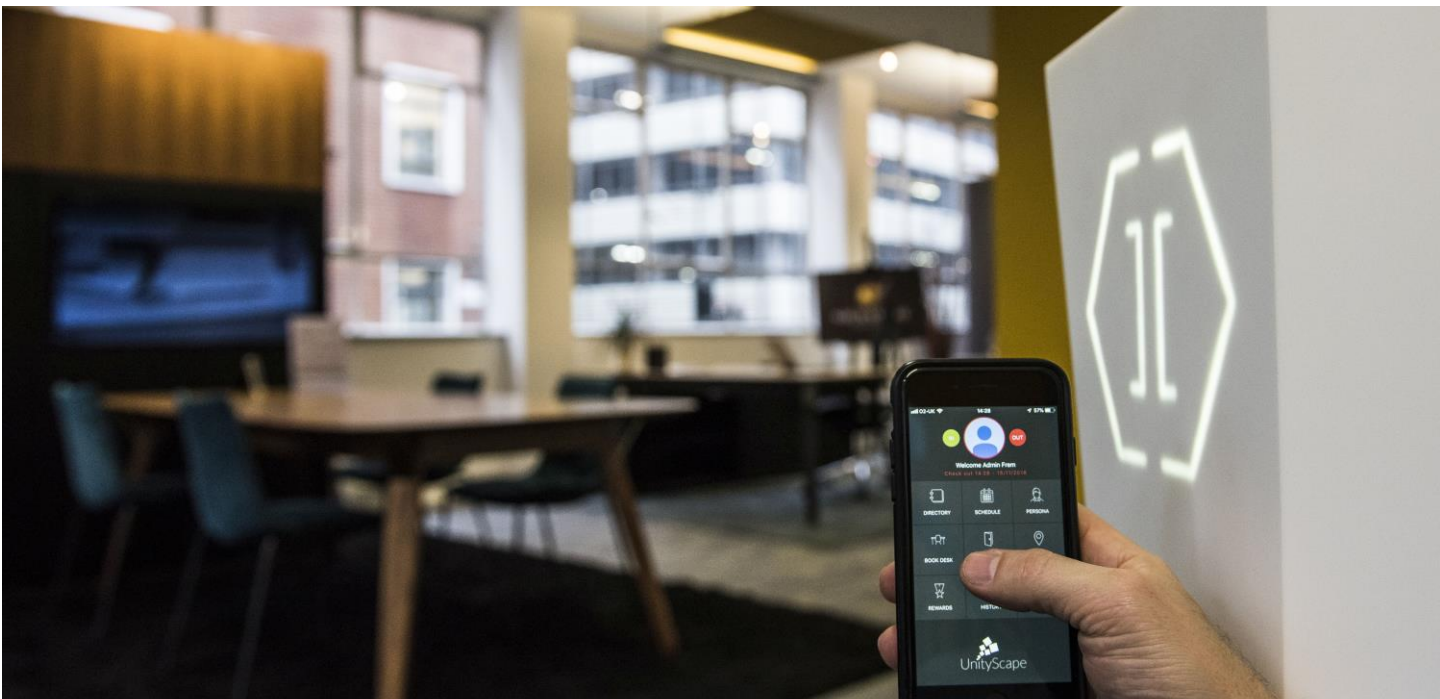

3 years licence

3 year hosting

Unique QR code for POD

** Depending on pod type*
